U. S.-GERMAN SITUATION IS MORE HOPEFUL

GREAT VICTORY IN WEST BARES HUGE BRITISH DRIVE PLANS

Teutons Lost Six Square Miles Of Territory As Enemy Launches Smash

LONDON, Feb. 19.—Following Saturday's engagement the British advanced further despite mud, until their lines now overlook Miraumont at several points, it was today announced. German counter-attacks were unsuccessful. An unsuccessful Zeppelin raid of the French coast in the neighborhood of Boulogne was reported in today's official statement. Several bombs were dropped without result.

Calm was reported on almost the entire western front. In Alsace there was patrol fighting.

LONDON, Feb. 19.—Details today of the brilliant British victory around Miraumont impressed experts here with the preparations Great Britain has made for the great offensive of 1917. "Two days' fighting resulted in ejecting the Germans from nearly six square miles of terrain of enormous strategic importance—and the victory was achieved despite the most severe handicaps in weather. The number of prisoners was expected today to reach somewhere near 1000.

Front dispatches declare the German forces attacked were fully aware of the imminence of the assault. They occupied the more favorable position for defensive operations, being on the hills of Miraumont. A heavy mist prevented British aircraft from estimating ranges for guns and veiled the objective for the men on the trench parapets. The attack was carried through with precision, exact ranges being obtained through previous reconnaissances. The British did terrible damage to the German trenches. The success of the British forces indicates the completeness of the British plans no less than the confidence that wrested ground from the enemy despite all obstacles of terrain and weather.

FOG HAMPERING FIGHTING ON WEST FRONT

BERLIN, via Sayville wireless, Feb. 19.—A dense fog over the western theater greatly hampered fighting activities yesterday and last night. Today's official statement said, "on the hills of Miraumont, the only enterprises. Many enemy reconnaissances failed because of vigilance of German trench troops, but a number of prisoners were brought in by German scouting parties."

The statement reported "nothing important" from the eastern front and of the Macedonian front said:

"There were skirmishes of outposts and isolated artillery fire. Two hostile aeroplanes were shot down."

DR. AKED TO OCCUPY PULPIT AT RIVERSIDE

RIVERSIDE, Feb. 14.—Dr. Charles F. Aked, nationally noted clergyman, is to occupy the pulpit of the First Congregational Church here and the Rev. Dr. Horace Porter, retiring pastor of that church, is about to enter the municipal arena as a candidate for Mayor of Riverside, it has been announced.

Dr. Porter said that numerous friends in Riverside had implored him to become a candidate and that he is seriously considering entering the race.

Dr. Porter resigns his pastorate in Riverside after an incumbency of eight years, during which the congregation erected a \$130,000 church edifice. This work being completed, Dr. Porter declared that he felt that he could properly relinquish his charge.

Arrangements have been made for Dr. Aked to fill the pulpit until October, at least, and it is regarded as probable that he will accept the post permanently. Dr. Aked's first appearance will be at Easter. On that day he will preach the sermon to the multitude at the sunrise service on Mount Rubidoux, for which elaborate plans are now being made in Riverside.

DISGUISED AS FARM HAND POMONA CHIEF ARRESTS BOOTLEGGERS

POMONA, Feb. 19.—Disguised as farm hands, Police Chief Lyter and Police Commissioner Higgs caught an alleged bootlegger in the lobby of the La Pictoria Theater. They each bought a bottle of sealed goods from a man named Arthur Schuter, who claims to have come here three months ago from Washington.

PATRIOTIC PARADE OF CITY SCHOOLS FEATURE FEB. 22

With flags flying, there will be a patriotic demonstration in Santa Ana Thursday afternoon at 3 o'clock.

With the school children of the city, citizens will gather to show their loyalty to this country.

Following the suggestion in the Register last Saturday, arrangements for such a demonstration were undertaken this morning. Believing the idea to be an excellent one, Secretary J. C. Metzgar of the Santa Ana Chamber of Commerce this morning held a conference with City School Superintendent J. A. Cranston, who was strongly in favor of some kind of a demonstration. After conferring with the members of the school board, Superintendent Cranston announced that the schools of the city will all be closed at 3 o'clock Thursday afternoon, and children from every school in the city will go to Birch Park, and will parade around the park. Each child will carry an American flag.

"We have not had time to complete arrangements," said Secretary Metzgar this afternoon, "but we will make arrangements for three or four short patriotic speeches upon that occasion. We will also arrange for music. Other details will be worked out."

The proposal to have a demonstration resulted in a number of telephone calls to the office of Secretary Metzgar this morning. He also received the following letter:

Santa Ana, Cal., Feb. 19, 1917.
Mr. J. C. Metzgar, Sec'y. Chamber of Commerce,
Santa Ana, California.

Dear Friend:—The Register of Saturday suggested a patriotic program for Washington's Birthday—by all means let's have it.

If you will pardon me I will suggest the following:

Have a half-holiday on Thursday, the schools closing and the business houses from 1 to 4.

Have each school rig up a wagon or truck cheaply with bunting or flags and have them filled with scholars dressed in white, each to sing some patriotic song during the parade.

Have fifty-three young ladies each to represent a State, Porto Rico, Hawaii, Philippines and Alaska and the District of Columbia. The young ladies could be dressed in white with a red sash across the breast and wear a pasteboard hat in the form of a shield, each girl to carry a flag and have the name of the State they represent on their shield or breast. Perhaps a native of each State could be found for this purpose, marching four abreast in open order and singing the Star Spangled Banner "loud make 'Geo.'" turn over. Some Woman's Club could have charge of this feature.

Company L might parade, the band volunteer their services, City Officials and others in machines, all bearing flags, citizens, men and women, high school and Junior College students, in line as organization, all carrying flags. The principal of each school to have a division. And the whole parade to be under the supervision of a competent Grand Marshal. This parade to go to Birch Park where patriotic exercises could be held.

This with your help and good weather could be made a glorious day for the Red, White and Blue, and incidentally advertising Santa Ana and bring a good crowd to the city which we all love.

I give you this early, so that you may use the evening paper to start this up.

Yours for a glorious day on Thursday,
(Signed) A PERSONAL FRIEND.

PAPER MAKERS MUST FACE JURY

WASHINGTON, Feb. 19.—It was learned today that the Department of Justice will not drop its grand jury anti-trust proceedings against the paper manufacturers even though the manufacturers have agreed to let the Federal Trade Commission determine a reasonable price and equitable distribution.

A reduction of between 2 and 3 cents a pound for newsprint paper is likely to be the maximum the commission will set.

Prices recently have gone as high as 5½ and 6 cents and in many cases some small publishers were unable to get print paper at any price.

CANADA PRINT PAPER CUT FORECAST

OTTAWA, Feb. 19.—Substantial reduction in the price of newsprint paper to Canadian papers is forecast in a statement issued by Sir Thomas White's department.

The producers will determine their course on Wednesday next and it is believed will take action which will render it necessary for the government to interfere actively.

A satisfactory settlement will clear one of the most difficult problems with which the government has had to deal.

HOODOO AT NEEDLES? TRAINMEN WONDERING

NEEDLES, Feb. 19.—Santa Fe trainmen are wondering if there is a hoodoo hanging around. On two nights in one week the west-bound Phoenix train has met with the same sort of an accident within a few miles of the same spot. In both instances the locomotive threw a high rod, wrecking the interior of the engine and causing a narrow escape for the engineer and fireman. The result has been that traffic has been considerably demoralized for two or three days on the Arizona division. None of the passengers were hurt in either mishap, though they were badly shaken up.

EUREKA MAN SHARES \$9,000,000 ESTATE

EUREKA, Feb. 19.—Charles H. Miller, a bartender known here as "Dusty" Miller, is heir to one-fourth of a \$9,000,000 estate left by his father, who died recently in Waterbury, Conn., it became known here today. Miller came to Eureka from Portland two years ago. He has now gone east to claim his heritage.

\$80,000 LOSS, 100 HOMELESS AS YEGG SETS BLOCK AFIRE

YOUNGSTOWN, Ohio, Feb. 19.—More than 100 persons were made homeless and an entire business block was destroyed at Lowellville, near here, early today when a safe-blower's charge set fire to a jewelry store. Two churches were burned down in the blaze, which caused a total loss of nearly \$80,000. The yeggmen escaped.

3½ YEAR TERM IS GIVEN OPERA SINGER FOR VIOLIN THEFT

RIVERSIDE, Feb. 19.—Three and a half years was the sentence meted out to Don Pasquale, reputed Spanish grand opera singer, in the superior court, for leaving town with a violin belonging to A. Kretschmann, who claimed an almost fabulous value for the instrument, pawned by Pasquale for \$5. Interest in the case was enhanced by an exchange of correspondence between the musician and a daughter of Kretschmann, the letters serving to reveal the whereabouts of Pasquale, a denouement evidently not anticipated by Miss Kretschmann, judging from the tone of her letters.

ONE DEAD, ONE DYING IN MISSOURI TRAGEDY

ST. JOSEPH, Mo., Feb. 19.—Mrs. Dagmar Krucker, called by the state as "the other woman" in the trial last October of Oscar D. McDaniel, then county prosecutor, for the murder of his wife, is dead today, and her former husband, John E. Krucker, seriously injured, in a hospital here. Mrs. Krucker was shot to death by her divorced husband late yesterday in her father's home. After shooting his former wife Krucker then turned the gun upon himself. The only witness to the shooting was the Kruckers' little daughter, who lay in bed ill with tonsillitis.

FOOD BY MAIL MOVE BEGUN BY P. O. DEPT.

WASHINGTON, Feb. 19.—The postmaster today is distributing lists of nearby farmers who are willing to ship food via parcel post. The government suggests that other post-offices do the same.

HOGS BRING RECORD PRICE

PORTLAND, Feb. 19.—Hogs today sold at the North Portland stockyards for \$12.60, the highest price ever known. Steers sold at \$9.60.

U-BOAT SUNK IN RUNNING DUEL WITH FRENCH FREIGHTER

Diver Fires Three Ineffective Shots; Third From Ally Craft Hits

NEW YORK, Feb. 19.—In a running duel at sea between the French line freighter Guayne and a German submarine, the U-boat was sunk, officers and crew reported today on their arrival here from Bordeaux.

The submarine, they declared, fired three ineffective shots at the ship and went down when the second shell from the 65-millimeter gun on the Guayne struck her squarely.

The submarine, Captain Rousselot said, appeared on the vessel's port side on January 22 when the ship was one day out from Bordeaux.

Captain Rousselot later said the submarine fired three shots at his ship, none of which took effect. The Guayne, he said, was swung around so that her 65-millimeter gun could be trained on the submarine.

Two shots were fired by the Guayne, he said, and the second struck its mark. The submarine, he said, disappeared.

The gunner aboard the Guayne, a Briton, refused to discuss the incident, but others talked of it, paying tribute to the quickness and accuracy of his fire.

The ship had to swing about while the submarine was firing, they said, and narrowly escaped being struck. Both gunners fired simultaneously as the ship swung into position for the fight, but each shot missed its mark by a few feet.

N. Y. PORT IS CLOSED NOW AT NIGHT

NEW YORK, Feb. 19.—Beginning tonight, the port of New York will be closed at quarantine at nightfall. No vessels will be allowed to arrive or depart during the night until the government situation changes.

1 NORSE, 1 SPANISH SHIP SUNK

NEW YORK, Feb. 19.—The Norwegian ship Del Mata and the Spanish steamer Mar Adriatico have been sunk, the Kerr Steamship Company announced today.

LONDON, Feb. 19.—The British steamer Iolo has been sunk. The Iolo was a steel screw steamer of 3,902 tons, registered at London and the property of E. Thomas Radcliffe and Company.

5 MORE SHIPS BRAVE DEATH ZONE

NEW YORK, Feb. 19.—Five more ships will be added to those whose prowls are turned toward Europe and the submarine danger zone. The Atlantic transport steamship Mongolia, the American freighter Algonquin, the Russian freighter Zaritza, the Japanese freighter Tsuyama Maru and the French freighter Basse Terre, are scheduled to sail. The Algonquin had not yet obtained a crew and her sailing may be delayed. She has cleared for London.

The American freighter City of Puebla today is well on her way across the Atlantic, laden with contraband. She is bound for Genoa. Sixteen ships departed for the war zone over Sunday and twelve arrived. Among the latter was the Moreni, the first American freight ship to come safely through the zone. She came from Genoa.

The Holland-American liner Ryndam is ready to sail without passengers. The Heligolap of the Scandinavian-American line already is ready to leave port.

MINE BLAST STARTS FIRE; THREE TRAPPED

DENVER, Feb. 19.—Three men are today imprisoned in the burning Oakdale coal mine near Lavets, while men wearing helmets are seeking to rescue them before gas kills them. The men were caught below the fifth level when a blast started the fire. Eleven other men in the mine escaped.

EXPORTS BREAK RECORD
WASHINGTON, Feb. 19.—The total of American exports in January was more than \$613,000,000, a new high mark by \$100,000,000. The Commerce Department says that the increase is due to higher prices instead of bigger volume. The total exports for last year were more than \$5,000,000,000 more than the preceding year.

TO FRAME PRESS RULES

WASHINGTON, Feb. 19.—The House Rules committee today appointed a subcommittee to confer with newspaper men regarding new rules governing admission to the press galleries and also named a committee to prepare a "leak" report.

Release American Yarrowdale Men, Is Firm U. S. Demand

WASHINGTON, Feb. 19.—Peremptory demand for release of the seventy-two American Yarrowdale prisoners now held in Germany has been sent to the Imperial German government, the State Department announced today.

The department announced the demand had been sent Saturday.

The department announced it would not "at this time" make the demand public.

Secretary Lansing, in making an announcement that the demand was dispatched yesterday evening, the department received word from Berlin, presumably through the Spanish ambassador, that the prisoners "would be released shortly."

It is not believed this communication of Sunday evening is a reply to this government's demand sent Saturday.

day, since so quick an exchange would have been practically impossible.

Officials were more inclined to believe the Sunday message received here was a reply to the inquiry made several days ago as to the status of the American prisoners.

While the department would not say so flatly, it strongly indicated that the demand is the one which had been prepared some days ago and would have been sent last week had it not been for press reports from Berlin saying the Americans had been or were about to be released.

This demand, it was made clear, which was just short of an ultimatum, recited the attitude, policy and steps taken regarding Germans, German property and German ships interned here and pointed out, clearly President Wilson's policy to take no step that could be construed as having been taken for "military exigency."

BULLETINS

A few hours may determine definitely the success or failure of the oil well being drilled near the head of Newport Bay. Oil-bearing sand is being forced up through the casing. A Los Angeles expert this morning declared that the pressure below is caused by oil and not by gas. A large stream of oil may begin flowing at almost any moment.

VILLISTAS CAPTURE TOWN NEAR JUAREZ

EL PASO, Feb. 19.—It is reported that Villistas have captured Pearson, in western Chihuahua, where there are Canadian companies' mills.

EL PASO, Feb. 19.—Guadalupe, 30 miles southeast of Juarez, has been reported captured by a band of Villistas under Manuel Ochoa, according to reports reaching the border today. A band of American cowboys under command of Andrew Peterson, Sr., father of the American killed by Mexicans in the raid on the Corner ranch last week, has invaded Mexico in an attempt to punish the bandits. The posse of Americans numbers 400, all fully armed and bent on securing vengeance for the murder of their three companions, kidnapped and murdered by Mexicans following the raid across the border last week.

MAN WHO SHOT L. A. ASSISTANT FIRE HEAD THOUGHT DOPE FIEND

LOS ANGELES, Feb. 19.—Police today believe Joaquin Tapio, a Bakersfield laborer who yesterday created a reign of terror here, and seriously wounded Assistant Fire Chief Todd, is insane, or a drug user. The only explanation he has made of his unprovoked assault is that Todd would not answer his question.

Todd and his chauffeur were seated in an auto when Tapio spoke to Todd in Spanish. When Todd replied he could not understand, Tapio suddenly shot Todd twice, pursued him and then paraded the street, brandishing a revolver, until overpowered.

RUSSIA TO GIVE JEWS FULL FREEDOM, REPORT

PETROGRAD, Feb. 19.—Removal of all present restrictions of entry of Jews into business and extension of full freedom of movement to Jews who were wounded in the present war, as well as the Russo-Japanese war, is planned by the government, according to semi-official press agencies today.

The Russian premier, it is stated, approves of enactment of such reforms into law, adding it will aid in the solution of the Jewish problems.

ALLEGED L. A. BANDIT SHOOT POLICE CHIEF

SANTA PAULA, Feb. 19.—Sebastian Garcia, suspected of being a bandit, was today arrested and taken to Los Angeles after a running fight with Marshal Miller. In a runabout, the officer pursued Garcia, who was riding in a jitney. When the jitney stopped, Garcia leaped to the ground and grappled with Miller. Shooting Miller through the wrist, Miller overpowered and handcuffed Garcia and gave him over to Los Angeles officers.

BITTER ATTACK ON GERARD IS MADE BY COUNT REVENTLOW

AMSTERDAM, Feb. 19.—A violent attack on former American Ambassador to Germany Gerard was made in today's issue of the Berlin Tages Zeitung, Berlin dispatches asserted.

Count von Reventlow, prime advocate of ruthlessness and one of the leading anti-American editorialists, was the author of the attack. He charged that Gerard used his official position as diplomatic agent to transmit information to America—for the purpose of ultimately reaching Paris and London. He specifically charged the ambassador went to the "utmost limit" in connection with the capture of Roger Casement.

"Gerard and his personnel," Reventlow declared, "appear to have delivered an honorable Irishman to the hangman."

The Von Reventlow article also assailed American correspondents' stories sent from Berlin and concluded:

"Thank heaven, Gerard has gone."

U. S. YEARS BEHIND IN AERO EQUIPMENT, SAYS YANKEE GIRL FLIER

BY W. S. FORREST
(United Press Staff Correspondent)

PARIS, Feb. 19.—"America is years behind in aviation equipment," declared Miss Ruth Law, American aviatrix today, after her first flight in a French "war plane" and a detailed inspection of one of France's aerial depots near Paris.

"I am perfectly amazed at what I have seen," the heroine of the Chicago-New York flight declared. "I hope to remain here for a month to watch this marvelous air service and I want to fly over a battle field if it is possible for me to obtain permission."

Miss Law's guide in her visit of inspection was Lieutenant William Thaw, the American flier in the French flying corps. Miss Law said she was searching for the type of French aeroplane best suited for her own use in the "American Derby"—or transcontinental flight. She said she was certain to compete in this flight, either as a racer against men aviators, or as a pathfinder.

BERNSTORFF'S LINER STILL IS AT HALIFAX

HALIFAX, N. S., Feb. 19.—Still shrouded in official secrecy, the Frederick VIII, carrying Count von Bernstorff and his suite to Germany, today lies in the river here. Conditions, so far as known, are unchanged aboard the ship.

Reports reaching shore today were that Count von Bernstorff and his suite had passed the examinations and that officials were proceeding with other passengers. There is no communication between ship and shore.

The date of the liner's departure has not been fixed. It depends wholly upon the completion of her examination.

100,000 SPIES NOW IN U. S., SAYS SOLO

WASHINGTON, Feb. 19.—During a Senate debate on the espionage bill, Senator Overman today declared that he is informed that there are 100,000 spies in America.

STIFF DEBATE ON INTERNATIONAL CRISIS LOOMS IN CONGRESS

Flood of Pacifist Literature Threatens to Bring Open Discussion

Executive Wishes to Avoid Airing of Situation By Solons

BY ROBERT J. BENDER
(United Press Staff Correspondent)
WASHINGTON, Feb. 19.—The Mexican embassy today received a communication from Bolivia, calling American nations to a conference to deal with the complications arising from German submarine warfare. Bolivia scathingly denounces Germany's methods.

WASHINGTON, Feb. 19.—Though there are no changes in dangerous particulars, the German-American situation today is generally regarded as more hopeful than at any time since the break.

The situation is such that the United Press is able to state positively that the President has no present intention of going before Congress to discuss it in any way.

No overt act has yet occurred. Officials do not see any apparent change by Germany in its attitude toward America.

President Wilson, however, does not intend to halt preparations. Plans for handling the situation after Congress adjourns continue.

STIFF DEBATE LOOMING IN CONGRESS

WASHINGTON, Feb. 19.—The big question in Washington on the German-American situation today shifted from "what will President Wilson do?" to "what will the President and Congress do?"

Despite strong pressure by administration leaders at the Capitol in the interest of "keeping Congress quiet," it was admitted today the heretofore under-surface rumblings of Bryan followers and pacifists may break out at any time into a veritable storm of debate and discussion of the whole situation.

During the past two weeks propaganda pressure of pacifists has been openly displayed in great volume. Every day the mail of Congress members contains more and more "literature" urging almost at all costs to prevent the break in relations from developing into a more serious matter.

Congress members who have frankly expressed pacifist and pro-German tendencies in floor speeches are much impressed with reports from Austria to the effect that officials there are hoping for a complete congressional airing of German-American relations. Such members have themselves expressed the identical view.

This procedure is exactly what the President wishes to avoid at this time. It is the one thing that might force his hand and make him feel he should immediately ask through the medium of administration leaders or personal appeal for the powers he is known to want in handling the international situation.

It was pointed out today that the President has two alternatives. One is introduction by his congressional leaders of a joint resolution providing an appropriation and free rein in handling the situation; the other is the personal appeal in which he would be expected once more to outline the whole situation and suggest that, in view of the present critical condition of affairs, Congress should vest in him broad powers to protect American rights, property and lives as he sees fit.

Decision Near
It appears a near certainty that the President will reach a decision on these two alternatives within the next few days because of the proximity of adjournment. It may be stated positively that unless the situation takes drastic turns for the worse, the President does not want, and will do all in his power to avoid, an extra session. In the meantime negotiations tending to avert a break between Austria-Hungary and the United States continue. First Secretary Grew, formerly of the Berlin embassy, has arrived in Vienna, according to unofficial reports.

Something definite in the American-Austro situation can be expected at any time, State Department officials hinted. That Grew carried important messages from this country to Ambassador Penfield is admitted. With this information in hand, Penfield will be able to explain in detail to the Austrian foreign office just what this government's attitude and expectations are regarding Austria's endorsement of the ruthless German U-boat warfare.

SERVICE TESTED BY STUDEBAKER OWNER EARLY THIS A. M.

Pasadena Man Delayed Only One Hour By Accident On Main At Midnight

Slippery pavements this morning vexed S. L. Jacker, of Pasadena, opportunity to test the efficiency of the service rendered by Studebaker agents. Jacker was en route home from Santa Ana and passed through Santa Ana after 12 o'clock this morning. After crossing the bridge on 11th Main street, his machine skidded on the wet pavement, the rear end of the machine skidding against the curb with such force as to break one of the rear wheels. It was 12:25 when the accident happened and just one hour later the Pasadena man and his party were on their way home with a new wheel spinning where the old wheel was spinning before it bumped up against the curb. The service was rendered by the F. Lutz Company, agents for the Studebaker. The extra was in stock and the stockman did the trick that made it possible for the party to reach home during the early morning hours instead of having to lay over until the broken wheel could be replaced by sending to Los Angeles for one.

BUSINESS GAIN MAY BRING NEW CARRIER FOR POSTOFFICE

Inspector, Here, Admits Local Men Have Too Much Mail to Handle

"Santa Ana is growing rapidly and the volume of business handled by the city boys is such as to make it impossible for them to render the service desired."

This is the observation of C. S. Ranger, post office inspector, who has been in Santa Ana the past week investigating conditions as they obtain with reference to the city delivery of mail.

Ranger is free to admit these conditions, yet absolutely refuses to say whether he will make a recommendation to the Post Office Department that another carrier be added to the force.

There is little doubt but that Ranger will recommend an additional carrier for the service. Some sections of the city now get only one delivery daily where the postmen should make two, and there is territory getting no service at all which is fully entitled to the advantages of daily delivery.

"I am not at liberty to state what my report will be in advance of filing it with the department," said the inspector this morning. "I will probably complete my investigation here tomorrow and will make a report to the proper official later."

"The boys on the local service are a fine lot of fellows—intelligent and deeply interested in giving their patrons the very best service possible. I am free to admit that they have more than they can handle with dispatch, and the usual post office efficiency is not possible under these conditions."

TOPEKA, Kan., Feb. 16.—Two members of the state film censor board rejected a film because a young woman in her nightie opened the curtains of a Pullman berth and peeked across the aisle at the man she loved. The nightie was cut too low, the disapproving censors said.

A social evening consisting of singing and various pastimes occupied the time pleasantly. Refreshments were served and the honored couple were presented with a generous gift from their friends.

2 MILLIONAIRES IN ASCOT GRIND

LOS ANGELES, Feb. 19.—Along with Eddie Pullen and Earl Cooper, are a number of fast eastern drivers entered in the George Washington sweepstakes to be run here February 25, and the big 100-mile race is expected to be the fastest and most thrilling event ever staged in Los Angeles.

Provided Bill Weightman, multi-millionaire driver enters with his Duesenberg car there will be two "millionaire kids" among the field of starters. A young millionaire from Oklahoma is understood to have entered a very fast Mercer car.

Louis Chevrolet with his newly designed Frontenac cars is expected to head the easterners. The contest, according to present indications, should resolve itself into a duel between eastern and western drivers.

Along with the big race will be a juvenile race for the championship of Southern California. It will be the first appearance of the midwest speed demons on any speedway. The slowest car entered does better than 55 miles an hour.

A radical departure in the management of speedways which it is believed will result in crowding Ascot to its capacity is the throwing open of bleacher seats free to general admission fans and the free admission and parking space to all automobiles.

ORNAMENTAL GAS LIGHTS TO BE PUT IN

City Manager Is Instructed to Proceed With the Installation

HUNTINGTON BEACH, Feb. 19.—In compliance with a petition signed by a large number of property owners owning property on Main street the city trustees have authorized the city manager to proceed with the installation of ornamental gas lights on Main street from the ocean front to the city limits. It is uncertain as yet whether the lights will be extended all the way to the city limits or merely to the high school, as property owners beyond the high school have not signed the petition. This matter will be left to the discretion of the manager.

The plan of lighting to be followed provides for a double system of pipes, one for the pilot and the other for the main light. Under this plan it will be possible to turn the entire system of lights on and off from one central point instead of lighting each lamp separately.

EDITOR HARKS BACK TO ADAM AND EVE

SANTA CRUZ, Feb. 16.—Because of the high cost of paper and the failure of subscribers to pay up, Luther McQuestion, publisher of the Mountain Echo at Boulder Creek, has printed an edition of his weekly on fig leaves. The edition consists of five dried loaves of bread, each with a twig and printed on both sides and contains news items, classified and legal advertising and an editorial in which McQuestion sets forth his reasons for "returning to first principles for print paper."

TOO MANY FUNERALS AT EL PASO RESULT IN DEEP DEPRESSION

EL PASO, Feb. 16.—Because the mournful strains of the "Dead March" and the sight of numerous military funerals impress a noticeable psychological depression upon the city, a movement is under way to direct the funeral processions from the main streets to less frequented channels. Funerals average from one to four a day. The band plays a funeral march for each one.

What is said to be the largest yield of bone from a single whale was taken in 1882, and amounted to 3119 pounds.

Above everything else CERTAIN-TEED stands for quality, efficiency and economy. Any product bearing the name CERTAIN-TEED will deliver all three in heaping measure.

Certain-teed Roofing
Certain-teed Paints and Varnishes

is the most efficient type of roofing for all kinds of buildings. For the sky-scraper a built up roof of CERTAIN-TEED is now recognized as the ideal roof.

For factories, especially where the roof area is considerable, the light weight, economy and long life of CERTAIN-TEED makes it by far the most desirable type of roof. For garages, out-houses, farm buildings, the economy, ease of laying and long life make CERTAIN-TEED superior to any other. For residences CERTAIN-TEED Slate Surfacted Shingles are artistic, light weight, economical.

CERTAIN-TEED costs less to buy, less to lay, and less per year of life. It is light weight, clean, sanitary and fire retardant. It will not dry out or rust, and is absolutely weathertight.

CERTAIN-TEED is made in rolls, plain and slate surfaced; also in slate surfaced shingles. Three thicknesses, but only one quality—the best. Guaranteed 5, 10 or 15 years, according to thickness (1, 2 or 3 ply), but will outlive the period of guarantee.

The long life of CERTAIN-TEED is due to its quality and the saturation of a special blend of soft asphalt, kept soft, and prevented from drying out, by a coating of harder asphalt.

The professional painter can not mix his own paints and compete with CERTAIN-TEED Paints any more than the small shoemaker can compete in price and style with the big shoe factories. It is better, both for the painter and the man who pays for the job, if the painter uses CERTAIN-TEED Paint. All uncertainty is eliminated, waste and left-overs are avoided, and the quality is assured.

Remember, CERTAIN-TEED Paint is guaranteed to give satisfaction. Instead of the painter's guarantee you have the guarantee of a business which has become the largest of its kind in the world, because it makes and sells good goods at the lowest possible price, and backs them with all of its enormous resources.

If you are building or need a new roof, it will pay you to investigate CERTAIN-TEED before deciding upon any type of roof. For sale by dealers everywhere.

CONTROL OF KELP BEDS UP FOR WILDCAT CHICKEN PIE COMMITTEE ACTION MENU AT THE TODD HOME

Associated Chambers Committee Considering Mouser Assembly Bill This P. M.

Consideration of the Mouser Assembly bill which proposes placing kelp beds under the jurisdiction of the Fish and Game Commission brought a special committee of the Associated Chambers together at the city hall this afternoon.

The committee is composed of Lew H. Wallace, Newport Beach, N. Philbrook, Laguna Beach, and H. L. Heffner, Huntington Beach. Heffner was not present and the other two members discuss the new bill thoroughly and will make recommendations which they deem to be the best interest of the county.

Recommendations of the committee will be presented to Assemblyman Burke and State Senator Evans. "Kelp beds along the shores of Orange county are a valuable asset to the county," said N. Philbrook, in discussing the matter to come before the committee previous to the meeting. "The potash industry developing through its manufacture from kelp is a new one and promises to be big in the future. For this reason I believe boards of supervisors should have jurisdiction over the beds along the shores. The state now has jurisdiction and the Mouser bill doesn't appeal to me as being for the best interests of the county."

Bobcat In Captivity Breaks Out of Cage and Raids Chicken Coop

Five perfectly good chickens went into chicken pie or some other form today at the home of David Todd, 1241 West Third, while the pelt of a wild cat which dispatched the fowls hangs on a chicken fence at the rear of the Todd residence.

Conrad Crookshank of Capistrano recently presented Todd with a wild cat caught on his ranch. The cat had been in captivity at Todd's for about a month, but its association with civilization for that period seems not to have altered its propensities for raiding hen coops.

The Todds occupy an apartment house with John M. Morrison and family. About 8 o'clock last night Mrs. Morrison heard a disturbance in the chicken yard and on investigating found that the cat had gotten out of its cage and was celebrating its escape from duress by grabbing chickens on the roost by the head and crushing their heads. One had been killed when Mrs. Morrison made the discovery. Four more were killed by the cat before it was dispatched.

Chas. Smith, a neighbor, was called and he put a bullet in the activities of the hen coop raider by a well-directed shot from his trusty shotgun.

The boom of the gun disturbed the Sunday quiet of the neighborhood, and attracted some of the neighbors to the scene of the disturbance.

Rev. Thos. McClary humorist, will lecture at Spurgeon Memorial Church this evening. Subject, "The Man With the Hoe."

FEW DROPS AND CORN LIFTS OUT

Says There Is No Excuse For Cutting Corns and Inviting Lockjaw

—Sore corns, hard corns, soft corns or any kind of a corn can harmlessly be lifted right out with the fingers if you will apply directly upon the corn a few drops of freezone, says a Cincinnati authority.

It is claimed that at small cost one can get a quarter of an ounce of freezone at any drug store, which is sufficient to rid one's feet of every corn or callus without pain or soreness or the danger of infection.

This simple drug, while sticky, dries the moment it is applied and does not inflame or even irritate the surrounding tissue.

This announcement will interest many women here, for it is said that the present high-heel footwear is putting corns on practically every woman's feet.—Advertisement.

Associations Put a Time Limit
For Joining In Season's
Co-operation

The foxy orange grower who has been in the habit of staying out of the association until such time that he felt sure that he would get in on the highest market will be unable to play his wise little game any longer.

The associations are on to him, and they have adopted a rule to make him get into the year's business on the same basis with the growers whose membership can be depended upon.

The rule that has been adopted by the Santiago, McPherson, Villa Park, Olive, Tustin and Garden Grove associations, affiliated with the Orange County Fruit Exchange, is that the list of membership closes each year on April 15.

The number of growers who have remained out in previous seasons and who have come in late is not great, but the associations feel that even though few, that number ought to be eliminated from the reckoning.

Notice to Valencia Orange Growers

In order that plans may be laid each year for the distribution of the Valencia crop, and the purchasing of packing materials, etc., to take care of same, it is desirable that the associations know in advance of the shipping season as to their probable output; for this reason the Boards of Directors of the following associations have passed resolutions to the effect that no growers be permitted to join any Exchange association after April 15th, for the crop of that current year, except where bona fide change in ownership of property has taken place.

IS OURS A SHAM PATRIOTISM?

Here is something that every citizen of the United States ought to read. It ought to be read from every pulpit in this city. It should be read in the schools, the clubs, the lodges. It should be read aloud in the homes.

It is part of an address by Henry A. Wise, chairman of the conference committee on National Preparedness. The Register takes pleasure in reprinting a part of this patriotic address, only regretting that the copy that has come into our hands is not complete:

To you, whose forbears broke this continent to the plough and set up in it a free people, I address myself.

I appeal to you for the restoration of the idea of patriotism which years of tawdry misuse have made almost obsolete, and I plead for your cheerful acceptance of the obligations of patriotic service. You and I pride ourselves upon our being of the stock that founded this republic; have we not ceased to demand of ourselves that we repeat even in small-measure the services we are so fond of asserting our ancestors rendered it?

We are the descendants of patriotic forbears, but are we in turn bequeathing to our descendants a record of our own patriotism? To arouse the tang of patriotism in their blood must your children and mine pass over us? Must they go back half a century, or a century and a third for something to be proud of?

If you say the work is finished, that now there is no need for patriotism, History replies: The work of patriotism never is finished; when it ceases your country suffers, when it ceases your country becomes extinct. And Truth adds: Your country now is in sore straits—in sore straits because your patriotism has been a sham patriotism, a thing of words instead of actions, of blatant phrases instead of personal service, instead of self-sacrifice.

You and I brag of our history, our greatness. We talk loudly of the Flag of the Free, and we wave it and shout. Then, filled with the pride of '76, we rattle our flintlocks, shake our fists at Europe, and go back to work and amusement.

Such patriotism is sham, all sham! It merely is the froth that foams off a people rotten with individual selfishness, with sectional prejudice, with class jealousy, and ignorant of the world; a people of petty states that have not become a nation, who lack wholly that sacred solidarity of subconscious thought called a national spirit. Where is there among us that yearning for country which impels one to give himself without barter to the flag that is over his head, and forbids him to snitch from it contemptible advantages that can be got without cost?

We take, we never give; we demand that the flag shall protect us, but we hesitate, we refuse, to protect the flag. The flag must give us shelter and wealth, and the vanity of believing ourselves

a great and glorious people. But we must not be asked to give aught to the flag of service, of money, of anything.

But patriotism such as this no longer is to be tolerated. The time has come when the patriotism of words is a dangerous thing unless it is backed by the patriotism of action, by the forethought and wisdom which acquire the power to make words good. The times have ceased to be in careless mood. The nations are dangerous; they are bleeding and hungry, and we are fattening upon their misfortunes. The ink of diplomacy no longer is black, it is red; and it is no safe act for any nation to claim even its rights without having in hand the means to enforce them.

This brings a new duty into your life and my life, the duty of active preparation for the defense of our rights and our land. Shall we be weak and shrink? Shall we attempt to escape its cares and its costs, and let come what may? Shall we temporize, and let Utopian dreams delude us into the belief that the self-righteous may as safely depend upon the defensive value of defenselessness as upon ships and men? Only the unsanity of a sexless fanaticism has answered to this, Yes! But upon such a reply the extinct peoples cry out: No nation ever was builded or preserved by the unmanly disciples of Impotence!

No, there is but a single path open to our safety—to the moral security which comes of the courage and determination to enforce the right, and the material security which lies in the ability to enforce it. To pursue that path we must apply the caution of patriotism each to his own instincts of selfishness, until there shall be yielded gladly by each the uttermost national service of which he is capable, a service for which no return other than the common good is sought.

If such be the spirit of a people that its individuals will make the sacrifices necessary to insure the safety and well-being of the whole, then the essentials of national self-preservation have been achieved. The means needed to carry these into effect will spring naturally into being. If we Americans are to remain a great power, secure in our liberties our rights, and our territory, it is upon our unflinching acceptance of the principles of universal patriotic service, and their translation into the daily thought and action of our lives, that we must wholly depend. Upon nothing less ever was founded great nationality.

despise a traitor, the gentleman mentions the editor of one of the papers using my contributions as "your master."

There is a plain word for this. I bow humbly to an overruling providence, but no man is my master. Neither have I any quarrel with a person whose mental deficiency is painful to observe, but probably incurable.

To the End
Both sides in the European struggle announce that they will fight to the end.

Impossible to see how this could be avoided. The end of a war is the place at which it stops.

Timidity
Two pugilists are said to have declined to fight for a purse of \$60,000. How those chaps must dread a beating! Or perhaps their confidence in the money is weak. Stage money is at considerable discount.

Wrestling
A wrestler known as the "Strangler" is said to intend to go back to his Kentucky farm.
Good idea. There may be less money in strangling the cockle burr and getting a clutch on the throat of the potato bug, but these vocations are useful.

Not Worrying
"Don't worry about New York!" counsels a writer in the American Magazine, addressing people in general.
Nobody is worrying so long as there remains to them the blessed privilege of staying somewhere else.

Fortune in Toothpicks
Recently a fortune made in toothpicks has been distributed in this state.
Thus the efforts of the cafeteria crowds to explore the cavities of their remote molars are doing somebody good.

Anti-Knockers
In Springfield, Mass., there is a society, as yet small, the members of which are pledged to speak in praise of the absent, or keep their mouths shut.
It is the truth that there is good in everybody. Singular that virtue so seldom inspires conversation.

Throw Him Out
The Chicago man who has sued a girl for breach of promise ought to be thrown out of court by judicial mandate, the ejection actively abetted by a squeaked bailiff.
Every girl has a right to change her mind, and if in a thoughtless moment she has become engaged to that sort of a man not to change it would be a wrong to society.

Poisoning Dogs
There is a creature in the beach towns engaged in poisoning dogs.
His methods are not known, but perhaps he permits the dogs to bite him.

The Value of Affection
Suing for alienation of affections may in instances be profitable, but the trial takes the time of courts that the public pays for attending to real business.
Affections subject to alienation aren't the real thing anyhow. One should with great cheerfulness observe their departure, and instead of seeking damages do a jubilant song and dance.

Observing Sunday
Police gathered in a man at a beach town for speeding. The day was Sunday and the offender was a preacher from Indiana.
Isn't a preacher entitled to any vacation at all.

Empurpled Vision
Near Santa Rita, whose relation to try territory is not known here, a scientist the other day glimpsed a purple frog. Gelett Burgess, whose failure to vision a cow of this hue inspired him to immortal song, might at last I've saw a purple frog;
You cannot even think one? Why, near it, croaking on a log. There was a sky-blue pink one.

LOCAL GOLFERS
AGAIN IN TIE
WITH VIRGINIA

NEWPORT BEACH, Feb. 19.—In a driving wind which at times threatened to blow the players from the course, the representatives of the Virginia Country Club of Long Beach and the Orange County Country Club, played the first match of their new series on the links of the local club Saturday.

Although the weather was unusually cold the rivalry which existed between the two clubs kept the excitement at fever heat as the close scores of the individual matches will show, and when the last chill blast swept across the course at the conclusion of the last match, it was found that the competing teams had again tied.

The series played between the Virginia players and the local men a few weeks ago also resulted in a tie and at that time in order to settle the claim to supremacy, the present series of seven games was decided upon, of which Saturday's game was the first.

In the present series, however, the professionals of each club are allowed to compete against one another, while in the former matches only the amateur players were allowed to compete.

The match between Bob Simpson and Bob Black aroused particular interest as it was the deciding match of the tournament. Both professionals were playing in the best of form, Simpson winning for the local club 2 up and 1 to play.

The scores of the individual matches follow:

S. L. Collins (O. C. C. C.) beat E. Campbell (V. C.) 3-2.
Homer Robinson (O.C.C.C.) beat Dr. Foote (V.C.C.) 4-3.
A. C. Twist (O.C.C.C.) lost to A. M. Goodhue (V.C.C.) 3-2.
J. W. Tubbs (O.C.C.C.) lost to E. M. Wilson (V.C.C.) 4-1-3.
G. B. Shattuck (O.C.C.C.) lost to F. Dixby (V.C.C.) 4-3.
E. B. Stanley (O.C.C.C.) lost to Dr. Sellery (V.C.C.) 3-2.
V. V. Tubbs (O.C.C.C.) lost to H. L. Harrison (V.C.C.) 3-2.
Fred Parsons (O.C.C.C.) beat J. Holliday (V.C.C.) 3-2.
Norman Hoyle (O.C.C.C.) beat Dr. Dameron (V.C.C.) 7 up.
Bob Simpson (Pro.) beat Bob Black (Pro.) (V.C.C.) 2-1.
The date for the second match of the series, while not definitely decided upon, will be in the near future.

T. R. PLANS TO RAISE
EXPEDITIONARY FORCE

NEW YORK, Feb. 19.—The World says this morning:
"The World is informed on excellent authority that Col. Theodore Roosevelt is planning to raise an expeditionary force in the event of war with Germany and to sail to Europe with it just as soon as possible.
"It is his intention to place this force at the disposal of the entente generals who have charge of the fighting scheme and to lead it in accordance with their ideas."

REDLANDS WOMEN BACK
COMPULSORY TRAINING

REDLANDS, Feb. 19.—Colonel A. C. Sharpe, U. S. A., retired, spoke to the women of the city at the Contemporary Club and urged them to make a concerted effort for military preparedness. He pointed out the dangers confronting Southern California in case of war and urged the women to prepare themselves for duty in the hospitals and mobilization camps.
He asked the women of Redlands to join in the efforts of the Navy League to serve in event of war and to assist in the establishment of a naval base hospital.
A resolution endorsing compulsory military training was passed.

Looking Toward Peace
Rochester, N. Y., Feb. 12, 1917.
Editor Santa Ana Register,
Santa Ana, Cal.

Dear Sir: After the war what? Most likely a defensive alliance for all the European states will be the outcome of this last great war among them. A certain section of these warring nations, who trusted in the power of might to conquer and rule all the world, as well as the remaining ones who believed only less in the power of arms and armaments, will thus be led to see that the brotherhood of man is the basic principle of all permanent peace.

Awful as the present experience of Europe is, it has probably hastened by hundreds of years the universal acknowledgment and adoption of the principle that right, not might, is the best law for the welfare of nations. Then why prolong (two and one-half years' carnage has been decisive of nothing) an unnecessary and useless conflict, that can only result in the exhaustion of these self-same powers and the century-long misery of the great masses of all these peoples?

If a new Hague Conference were to sit continuously until the peoples of these countries compelled their rulers to submit their differences to its decisions, peace might come sooner than anyone would imagine. What greater role could America have than to be the first to take this decisive step, and work for it incessantly until its fulfillment came?

Yours very truly,
F. L. FISHAUGH.

HOUSEHOLD ECONOMICS

Third Section Talks of "Nursing and Dietetics" at the Home of Mrs. Ames

The third section of the Household Economics met Friday afternoon with Mrs. A. W. Ames on East First street, "Nursing and Dietetics" being the subject. The hostesses, Mrs. Ames, Robert Skiles and J. B. Stewart, met the members at the doors in crisp nurses' costumes.

Violets and heliotrope made dainty decorations and excellent papers were read by Mrs. Ames on "Dietetics," Mrs. W. W. Crosier of East Newport, "Vegetable Diet," Mrs. Stewart, "Hospital Work," Mrs. Robert Skiles, "Good Cheer," and Mrs. Bennett, "Home Nursing."

Merry guessing contests followed, Mrs. D. L. Anderson receiving first prize and Mrs. J. N. Walker the consolation.

During the social hour, the hostesses served soup, wafers, brown bread, sandwiches, coffee, jello and cake. Misses Corinne and Dorothy Skiles pleased with piano and violin music during the service of the refreshments.

NOTABLE EVENT

Colonial Tea by Revolution Daughters Was Delightful, Successful Function

A notable event held the attention of society on Saturday afternoon in the Colonial Tea given by the Daughters of the American Revolution at the home of Mrs. E. D. Holmes on North Main street.

A home decorated with a profusion of flags and flowers, a carefully prepared program, dignified women in quaint Puritan garb and others attired as Indian girls, wandering among guests in modern costume, made a scene not to be soon forgotten by those present.

The program, in charge of Miss M. Birdena Henry, was one of exceptional merit.

Regent Mrs. A. J. Crookshank, attired in a French Colonial costume and with powdered hair and carrying a quaint bouquet, looked as if she had slipped from a wonderful painting of olden times, deeply courtesying as she welcomed the guests to this unique entertainment and explaining at some length the work and ambitions of the Daughters of the American Revolution.

Miss Carolyn Houghton rendered a delightful piano number. Misses Crookshank, Campan, Albright and Miss Edwards sang "America" to one of the newly submitted letters, for which a prize of \$75,000 has been offered. Mrs. John Clarkson entertained with two inspiring patriotic readings and Miss Rena Cranston charmed her audience with whistling solos.

The dramatic sketch with the Puritan maidens and Indian girls completed a splendid program and the exercises of the afternoon were completed by all present joining voices in "America."

During the social hour following the program, the guests were served with tea, sandwiches and cakes from lovely tables presided over by Misses Crookshank, Balderston, Roberts and Miss Stutsman.

Among those present besides the members of the chapter were noted Misses Anderson, Baumgartner, Briggs, Clarence Crookshank, Chase, Evans, Gowen, Grubb, Lyon, Padgham, Robertson, Tedford, Stephenson, Morrow, Morrison, Wehrly and Miss Crookshank.

Refreshments of birthday cake, ice cream and candy were served, the following being the guests: Lyle Roberts, Theron Sauer, Virile Kelly, Fred Crowley, Foster Prather, Lee and Collins Worden and Allen and Edwin Beisel.

UNION MEETING

Ladies' Aid Societies of Santa Ana Churches Have Get-Acquainted Afternoon

A union meeting of members of the Ladies' Aid Societies were held Friday afternoon at the Congregational Church. This is the first of a "get-acquainted" plan, and the various churches were well represented, about seventy-five being present.

The president of the Congregational Aid Society being absent, the vice-president, Mrs. C. N. Mosher, presided in a very satisfactory manner. She gave a short welcome address, which was followed by a program given as follows: Piano solo, Mrs. Van Doren of the Richmond Avenue Church; a short talk on the idea of this meeting and an extract from an eastern paper on similar meetings and how beneficial they were there, was given by Mrs. Harwood Sharp of the Unitarian Church; vocal solo, Mrs. F. W. Slabaugh, entitled "Happy Song," also an encore, "Little Boy Blue," accompanied on the piano by Alan Revill.

Quotations from several authors on "Fellowship" were given by a number of different members. Recitation, "The Ladies' Aid and How It Worked," Mrs. E. M. Van Patten, a visitor from the Congregational Church of Port Dodge, Iowa. To an encore she gave a short story of "A Boy's Finances."

After some discussion it was voted to hold semi-annual union meetings and a committee from the several churches was named to arrange the next place and the time. Mrs. W. G. Gould, First Baptist; Mrs. E. V. S. Pomeroy of the Episcopal; Miss Cowan of the United Presbyterian; Mrs. C. W. Burns, First Methodist; Mrs. E. L. Morrison, First Presbyterian.

Tea and wafers were served at the close. The hostess churches were the presidents and secretaries of the Unitarian, Christian, Richmond Avenue and Congregational, who acted on the reception committee and were assisted by members with the serving.

White roses and yellow acacia were used for decorations and a rising vote of thanks was given the Congregational ladies and all who assisted for a very social affair.

Mrs. Budrow at Long Beach
Mrs. W. V. Budrow, the well-known Spanish singer, is to give a program at a concert at Long Beach tomorrow under the auspices of the Ebell Society at the Liberty Theater.

Miss Lillian Breed and Earl Fraser will assist the popular artist.

On Wednesday Mrs. Budrow will sing at the inauguration of the Catholic Woman's Club at the Columbus Auditorium in Los Angeles. The new organization is three months old and has 450 members.

St. Elizabeth Guild Entertainment
The girls of St. Elizabeth Guild of the Episcopal church will give an indoor garden party at 7:30 tomorrow evening at the Church of the Messiah in the parish hall.

There will be candy and fortune-telling booths and a good program in which Maurice Phillips, Ernest Hartmann, Miss Rosamond Kraft, Miss Winifred Roberts and Miss Beth Phillips will participate. A one-act comedy, "The Teeth of the Gift Horse," will be presented. The entertainment is being given to raise funds to pay off the debt on a piano, which the girls recently purchased, to aid in the social life of the church.

There will be no admission fee but a silver offering will be taken.

Fifth Street P-T. A.
The Parent-Teacher Association of the Fifth street school will meet Tuesday evening, February 20, at 7:30 in the kindergarten bungalow. This is to be a father's meeting and a large attendance is desired. An interesting program has been prepared.

Covers were laid for twelve, the guests including Mr. and Mrs. H. S. Kennedy, Mr. and Mrs. N. E. Walthall, Mrs. D. J. Serganson and Percy Whittemore, all of Los Angeles; Mr. and Mrs. E. B. Trago and Mr. and Mrs. D. H. House of this city.

OUR SPLENDID VINOL
Quickly Stopped Mr. Clark's Hang-on Cough

—We have seen right here in Santa Ana such wonderful results from the use of Vinol in such cases, that we agree to return the money to anyone who tries it and does not get the same result Mr. Clark did. He says:

"I used Vinol for a chronic cough and hard cold which it seemed impossible to get rid of. At nights I would cough violently so I couldn't sleep. I learned about Vinol through a friend who had used it at the house where I am living, and the result of its use in my case was that the hard cold was soon well and the chronic cough disappeared in very short order." F. J. Clark, 9 Pearl St., Amsterdam, N. Y.

It's the beef and cod liver peptonates, iron and manganese peptonates and glycerophosphates contained in Vinol that makes it such a successful remedy for chronic coughs, colds and bronchitis. Try it on our guarantee. Rowley Drug Co., Santa Ana, also at the leading drug stores in all California towns.

AMUSEMENTS

"IT PAYS TO ADVERTISE"
One of the best plays produced in recent seasons fears the title "It Pays to Advertise," and Cohan and Harris count it as one of their successes. The play proves its title, and every rustic old business house in the country that has "something the matter with it" should send its representative to see this play and find out the reason, for there are thousands of rich old conservatives like Cyrus Martin, the head of the Soap Trust in the play, who need a few practical illustrations of the fact that "It Pays to Advertise."

The play is the funniest combination of circumstances ever staged, but as a practical lesson to those who do not believe it teaches a great truth.

Every newspaper publisher, and every town knows the man who does not believe in advertising, and when the players glibly tell of the success of "O'Sullivan Rubber Heels, Ivory Soap, Kellogg's Corn Flakes and other immense concerns created through advertising, then there hardly need be anything local in the estimate placed upon the work of the play producers who entertain while proving that every line of business is sure to become stagnant unless it is advertised.

"It Pays to Advertise" is to be the attraction at the Grand Opera House this evening, Monday, February 19.

Clune's Theater
Some remarkable scenes in the big tree country of California are announced as noteworthy features of "The Girl of the Timberlains," the new Triangle-Fine Arts play starring Constance Talmadge, which will be seen at Clune's Theater tonight.

The story deals with a conflict between homesteaders and a gang of claim jumpers, who try to get their lands away from them.

Anaheim Man Ordered to Appear March 2 to Answer To Accusations

Today Judge Thomas signed an order citing M. W. Martenet, a merchant of Anaheim, to appear in court at 11 a. m., March 2, for a report concerning his executorship of the estate of Mrs. Jessie L. Martenet. The citation sets forth that an accusation has been made that the estate has been mismanaged, that there has been a disappearance of funds and that one of the property of the estate has been sold before inventory of it was made to the court.

The citation was issued following the presentation of papers by a Los Angeles attorney in behalf of Miss Doris James, a minor, whose aunt, Mrs. Sarah Ashley, has been appointed as her guardian. The will of Mrs. Martenet left her entire estate to her daughter, Miss Doris James.

Contest Testimony

Today the trial of the contest of the will of C. C. Campbell was again taken up in Judge West's court. C. J. Wetherill, for several years assistant cashier of a bank at Orange, testified that when C. C. Campbell had all of his checks made out by his brother, F. Campbell, Mattie M. Damon, a nurse of Long Beach, was called as a witness concerning Campbell's mental condition. The line of evidence being produced by those contesting the will is meant to indicate that C. C. Campbell's mind was unsound.

Divorce Action

Judge Thomas today is hearing evidence in the contested divorce action of Earl G. Waidler of Anaheim against Earl D. Waidler of Los Angeles. Waidler alleges that his wife deserted him. The wife replies that she was impelled by her husband to leave home. Possession of a minor child concerned. Waidler testified that so many joyrides was the source of the trouble in the family. A TWICE-TOLD TALE

One of Interest to Our Readers. —Good news bears repeating, and when it is confirmed after a long lapse of time, even if we hesitated to believe it at first hearing, we feel sure in accepting its truth now. The following experience of a Santa Ana man is confirmed after six years. W. N. Nelson, 824 E. Fourth St., Santa Ana, gave the following statement on August 13, 1909. He said: "I suffered from pains in my back and legs and then my back was so painful I could hardly turn over in bed. I had rheumatic pains also. Doan's Kidney Pills freed me of the aches and pains in my back and helped the rheumatic pains." On February 8, 1916, Mr. Nelson added: "I am just as strong for as my Kidney Pills now as when I dosed them before. They have never failed to quickly relieve me." Price 50c, at all dealers. IN THE JUSTICE COURT

OVER STRAWBERRIES GREEK MEETS JAP AND GREEK WINS

But Justice Cox Is to Referee the Final Bout, Which Will Be In Court

A Greek and a Jap mixed blows over a box of strawberries this morning. The Jap admits defeat. He shows it, also.

He told his troubles to Deputy District Attorney C. D. Swanner this morning. He gave his name as Frank Pynn and the name of the Greek as George Wallace. Wallace keeps a fruit stand on West Fourth street.

Pynn tried to sell Wallace some strawberries, and Wallace was unkind enough to be suspicious of the strawberries that he could not see. He began to disturb the strawberries neatly packed on top that he might have a peek at what might be under the top layer.

Pynn was angry. He protested vigorously. Thereupon Wallace struck him. "I grab the hand with both my hands," said the Jap, "but he kept hitting me with the other hand."

A battery warrant for Wallace was issued.

FUMIGATE PICKERS' BAGS IN CITRUS BUG WAR, EXPERT'S ADVICE

ONTARIO, Feb. 19.—Sounding a warning to orange growers who are desirous of sparing their groves from infection from the dread mealy bug, which is said to have gotten such a foothold in some groves of the Upland section as to seem almost impossible of extermination, H. A. Spies, deputy horticultural commissioner of this district, is out with an earnest recommendation that citrus men insist that pickers going from grove to grove have their picking sacks and other equipment thoroughly fumigated before being allowed to work in groves which are free from infection.

Although numerous efforts have been made to stamp out the mealy bug in the Upland section, the dread pest is said to have gotten such a foothold in some of the groves of the upper part of the district that it has so far been impossible to find a satisfactory means for its extermination without destroying fruit-bearing wood.

The mealy bug is said to be one of the most serious problems confronting citrus experts today. They are continually working on plans for getting rid of the pest and hope soon to hit on a satisfactory solution of the problem.

Mr. Spies declares that the mealy bug may very easily be communicated from an infected to a clean grove by means of pickers' sacks, and warns fruit men that they cannot be too cautious. He is in favor of a law making the fumigation of picking equipment compulsory in districts where the pest abounds. Ontario groves have so far escaped infection, according to Mr. Spies.

The wagon landed on top of one horse after rolling and sliding fifty feet and young Nesbit unhitched the other horse, riding it to the home of Elsbey Reynolds at Relay Heights, where he secured assistance and went back to the rescue of the other horse.

FIRE HARMS BUILDING AT MANHATTAN BEACH

MANHATTAN BEACH, Feb. 19.—Fire, caused by a defective flue, broke out in the city hall here, corner of Harlan and Fourteenth streets, and did damage to the amount of \$5000.

The fire started in the attic and played havoc with the roof of the newly-constructed building. The hall was built last May at a cost of \$30,000. Insurance, amounting to \$10,000, is carried.

Hadden Sprinkling System in Operation

Scientific care is the secret of a beautiful lawn.

This does not mean that you must be an expert gardener. But it does mean that you must use expert—scientific—methods in order to secure desired results.

Scientific care of your lawn is a question of a sufficient, thorough and even distribution of water.

Sprinkling with a hose will ruin your lawn, sooner or later. By hose sprinkling you get too much water in some spots—rotting the roots of your lawn—or too little water—causing the grass to burn up from the top.

The Waste of Time

And think of the waste of time, holding a hose or the inconvenient and unsatisfactory method of dragging a little sprinkler about the lawn. This latter method always gets too much water on one patch of the lawn and too little on other places. You can't accurately time the minutes the sprinkler remains at each place, and the result is green spots and dried spots all over your lawn.

The One Sure Way

Invention and science have produced the Hadden Sprinkling System by which you save 90 per cent labor and 40 to 50 per cent of your monthly water bill. The Hadden System does away with the hose entirely. It distributes water uniformly and eliminates loss through evaporation.

The Hadden Sprinkling System may be seen at the Polytechnic High School, the Intermediate School, or at Orange County Hospital, and smaller lawns.

The low cost of installing the Hadden System—no matter how small or how large your lawn—will surprise you agreeably.

We install the Hadden Sprinkling System without injuring your lawn in the least. Let us furnish you an estimate (Free) now and you will have a beautiful lawn this summer.

MORE ATHLETES 'SIGN' TO PLAY IN CUB GAME

Nothing short of an army is going to content Victor Walker when it comes to plans for launching his onslaught against the Chicago Cub "Skecks" when they invade our fair city March 2 to do battle.

Walker, Alex Brownridge, J. C. Metzgar and L. L. Shaw today began to let trickle through various and sundry little tricklings of news regarding their war plans.

Most startling among the items divulged was this: that the Santa Ana Chamber of Commerce All-Stars will in reality consist of two all-star contingents.

We're going to have at least twenty men in uniform on the field, it is announced.

Judging from this, Walker is going to leave but few pebbles unturned in his efforts to mobilize a force of athletes the proportions of which will strike terror into the hearts of the doctory cohorts of Jimmy Shekard.

A steady stream of telegrams and letters to the East, to Los Angeles and other points is beginning to bear fruit, as is evidenced by Walker's announcement today that he and Brownridge have secured "Doc" Crandall's consent to cavort during the pastime with the Bruins. A letter immediately was dispatched to Frank Chance, manager of the Angels, asking the Peerless Leader to grant Crandall permission to play.

Anson Mott and Clare Head, two of the best known players in Orange county, also have promised Walker allegiance.

Gavvy Cravath and Carlton Stevens are taking a keen interest in the proceedings; they promise to do their drundest to aid in the Cub's defeat.

Incidentally, it may be said that, although the Cubs who are coming here are known as the "Skecks," they will be every whit on a par with "the other" Cub team. There are going to be as many veterans on one Cub team as on the other, according to assurances given by the Chicago National moguls.

"So she refused you?"
"Yes; but it was my own fault," said the young stock broker. "I proposed on a declining market."
